

TECHNICAL DATA SHEET

AEROSOLS

Cleaning and care INDUSTRIAL FAST CLEANER

WIKO INDUSTRIAL FAST CLEANER is a high-performance cleaner based on hydrocarbon solvents, alcohols and ether solvents. The cleaning agent contains more than 90% active ingredients and is the perfect solution for most cleaning procedures in industry, workshops and companies.

- Completely residue-free
- Leaves no film behind and absolutely non-corrosive
- Evaporates quickly
- Removes traces of moisture on metal surfaces

Application areas

- Cleaning of disc brakes and brake parts like brake blocks, brake plates and brake pads
- Can be used as degreaser and cleaner for glass, ceramics and metals in all industrial parts, workshops and in the household
- Pre-treatment of surfaces for painting or priming as well as to remove silicone residues on metals

Sizes / article number

400 ml can

AISR.D400

Application

Shake the aerosol can intensively before the application and perform a test spraying. Spray the designated parts crosswise from a distance of 20 to 30 cm until dirt and grease have been washed off or spray the parts and wipe off the liquid with a clean cloth. Repeat the cleaning procedure, if necessary. Do not spray plastic parts or surfaces coated with paint.

In case of heavy staining, repeat the procedure several times if necessary. Please test the compatibility of sensitive materials on spots that are not visible.

Storage & Durability

The shelf life is, at the optimum storage temperature of +5 °C to +25 °C in the closed original container, a maximum of 12 months. A higher storage temperature leads to a significantly lower durability. The storage temperature must not fall below +5 °C.
